

**Boil Water Rescind Notice
For:**

**VZCR 2628, VZCR 2627, VZCR 2626
I-20 SOUTHWEST OF FM 47**

**Any customer in the area above who experiences low to no
pressure during the emergency line repair
on November 5, 2025.**

On **November 5, 2025**, the Texas Commission on Environmental Quality (TCEQ) required our public water system MacBee Special Utility District, PWS ID #23400012, to issue a Boil Water Notice (BWN) for the area listed above and to inform our customers that due to the distribution pressure dropping below 20 PSI, or an interruption in service, water from our system must be boiled before consumption.

Our system has taken the necessary corrective actions to restore adequate pressure, disinfectant levels, and/or bacteriological quality. It has provided TCEQ with testing results indicating that the water no longer requires boiling as of **November 7, 2025**.

If you have questions, contact the Office at 903-873-2109 or 430-307-5544. If a customer wishes to reach TCEQ, they may call 512-239-4691.
